City of Allegan Advertisement for Bids

Re-Paving Trowbridge Street between Walnut Street and M89

August 10, 2018

1. Receipt of Bids:

Sealed bids will be received at City Hall, 112 Locust Street, Allegan, MI 49010 until 11:00 a.m. E.D.T. on August 22, 2018, at which time they will be publicly opened and read aloud. Final project costs will be based on actual syds milled and tons of asphalt placed. Please provide itemized costs for milling and a price per ton of asphalt on the attached bid form.

2. Scope of Project:

The project consists of the furnishing of all materials, traffic control, construction and restoration with 13A HMA. The area of the project is approximately 1804 syds. This section of road is asphalt over concrete except in a utility trench; a sewer was dug in one lane, so the concrete over the trench has been removed. The proposed project is to mill asphalt down to the underlying concrete or gravel up to 3 inches. Re-pave the road with 2-3 inches of asphalt (depending on mill depth). Match the gutter pan elevation on the south side of the road and overlay the concrete gutter pan on the north side of the road. Overlay the edges of the 6 concrete drives on the north side of the road to make a smooth transition. The City will have a dump area for the millings, but include trucking in your bid.

3. Performance Bonds and Insurance:

The winning bidder will be required to obtain a performance bond equal to the amount of the awarded contract and also provide liability insurance with the City of Allegan listed as an additionally insured.

4. Right to Reject Bids:

The City of Allegan reserves the right to reject any or all bids and to award the contract in the City's best interest, and the City may select a bidder other than the lowest bidder.

5. Completion Date:

All construction is to be completed by September 28, 2018.
