City of Maplewood Departments

The City of Maplewood, Missouri, was incorporated as a fourth-class city in 1908. At that time, the incorporation was sought to provide fire protection and education for residents. Throughout the next seventy years, the city's services grew to include parks and recreation, police protection, street maintenance, and a library. The library and school functions later became self-managing entities with their own tax rates.

In 1978, the city adopted a Charter form of government and created a mayor-council-manager government structure. The mayor is elected at large by the community and is the official head of government, representing the city at functions. In addition, the mayor is a member of the city council and is entitled to an equal vote on issues but has no veto power.

The city council members are elected from wards. The city has two members from each of the three wards. The council is the policymaking body of the city government and directs the City Manager as to budget, finance and policy issues.

The City Manager is appointed by and serves at the pleasure of the City Council. The City Manager is responsible for the daily operations of the city government, including the functions of all departments, budget and personnel. In addition, the manager advises the council and the mayor on issues of acceptable public administration practices.

The City of Maplewood has six departments: Community Development, Finance and Administration, Police, Fire, Public Works, and Social Services. The following offers a brief synopsis of the various functions and special projects of each department.

Trash Collection Guidelines

By law, only non-hazardous household solid waste can be collected. Liquid waste products cannot be collected in a liquid state.

- Non-hazardous liquids can be mixed with an absorbent such as kitty litter but must be completely dry and with the lid off the container to show the driver that it is dried out.
- All services are "curbside" which is placed within four feet (4') of the traveled portion of the adjoining roadway.
- Trash with yard waste mixed in cannot be collected.
- Trash in cardboard boxes cannot be collected.
- Items over four feet (4') high or long must be broken down or cut to four feet (4') or less.
- Loose materials must be containerized or bundled.
- City ordinance requires the use of trash cans up to 32 gal. in size and 60 lbs. in capacity.
- Rubbish (waste that rots and stinks) should be bagged, and the bag(s) should be placed in trash cans or trash carts. Republic Services will not be responsible for any garbage spread about when animals or birds rip any such bag(s) open.
- Rubbish (waste that does not rot and stink) can be placed in plastic bags and set out for collection without having to be in a trash can or trash cart. Please do not overload bags so that they can rip open when picked up.
- Trash limits will not exceed the commonly produced quantity of a regular household family.

- Medically necessary needles (**Sharps**), such as diabetic syringes, will only be collected in approved Sharps containers which are available from your syringe supplier, or you may use a puncture-proof container with a tightly closed lid.
- **Bulky trash** includes any type of solid waste that cannot be placed in a 32-gallon trash can. Bulk trash does not include major appliances, automobile parts or components, construction debris, or any such items. All boxes need to be broken down and bundled. We request that bulky items be limited to two (2) items per pick up. Please call Customer Service to schedule any Bulky Item pickup.

 - Roofing material (e.g., shingles, ceramic roof tiles, tar paper, gutters, fascia boards)
 - Siding

*The above list is not all-inclusive. Please contact Customer Service at 636-947-5959 to inquire about having construction items picked up for an additional charge.

Storm Damage Policy

As a courtesy to residents and businesses, the Public Works Department picks up tree limbs that have fallen in front and rear yards after major storms and high wind incidents. The city's policy regarding tree limb collection is as follows.

The Public Works Department will pick up limbs that can be moved by one person from the yard to the tree lawn (the lawn between the sidewalk and the curb). If the limbs will not fit within the tree lawn, pile limbs in the front yard behind the sidewalk for pick up. Residents have seven (7) days after the storm to place limbs at the tree lawn. Public Works will make one pickup per household. Thereafter, disposal of limbs and brush must be done through Republic Services, or the resident may hire a tree trimming contractor to handle the disposal.

Republic Services' policy states that; tree limbs must be cut into four-foot lengths and gathered into a bundle tied with twine, stick ends together, no larger than two feet in diameter. The bundle must have a Republic Services tag attached to the twine and the tag must face the street. Collection will occur on the regular Wednesday schedule. Republic Services tags can be purchased at City Hall, Maplewood Library or Scheidt Hardware, 7320 Manchester Avenue. Unbundled branches or branches forced into a trashcan will not be collected by Republic Services.

Neither the Maplewood Public Works Department nor Republic Services will collect tree limbs larger than six inches in diameter. Nor will the city or Republic Services dispose of entire trees, even if the tree branches and trunk have been cut into short lengths and stacked at the curb. Such disposal must be completed by a tree trimming contractor or by residents hauling such waste to such places as St. Louis Composting in Valley Park.

The city is responsible for trees located between the sidewalk and the curb. Any trees in the tree lawn suffering storm damage will be trimmed or cleared by the Public Works Department.
